# How to connect Bluetooth Webcam

1. Download **SmartCam_v1_4.exe** and **SmartCamAndroid_v1_4_0.apk** from:

   http://sourceforge.net/projects/smartcam/files/smartcam_windows/SmartCam_v1_4/SmartCam_v1_4.exe/download
   and

   http://sourceforge.net/projects/smartcam/files/smartcam_android/SmartCamAndroid_v1_4_0/SmartCamAndroid_v1_4_0.apk/download

2. Install **SmartCam_v1_4.exe** on your computer.

3. Install **SmartCamAndroid_v1_4_0.apk** on your Android mobile.

4. Start **SmartCam** on your computer. Then minimize it to the taskbar.

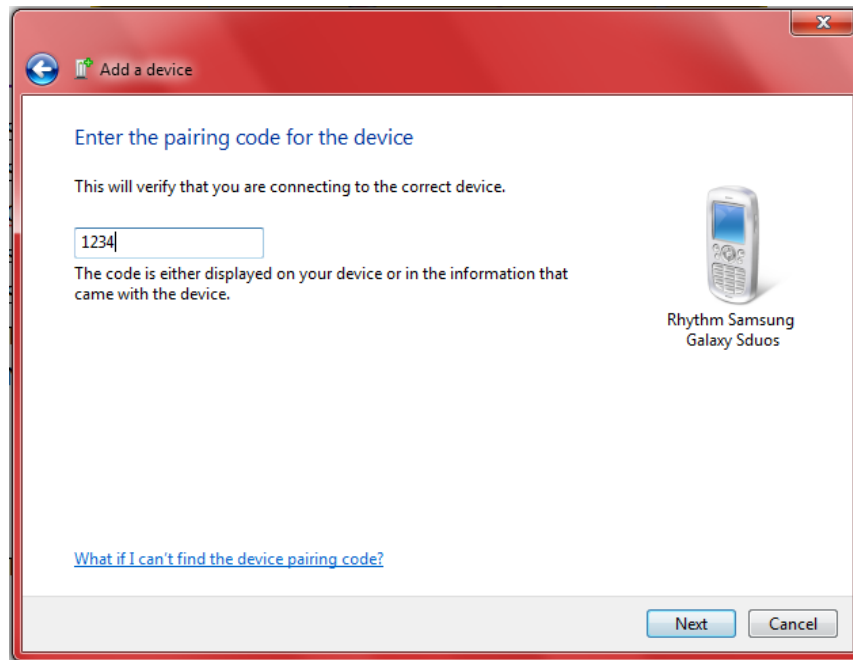

Minimize it!

5. Start **SmartCam** on your Android mobile.
   Goto **Settings>>Bluetooth server.**
   Select your desired **bluetooth server**.
   Select **Connect bluetooth**.
   Type **1234** as device's required PIN and select **OK**.

6. Now, on your computer, click on the **Bluetooth Devices notification icon** on taskbar.

7. Type **1234** as device pairing code and select **Next**.

8. The device will be successfully added. Click on **Close**.

9. Finally, double click on the **SmartCam** icon on taskbar on your computer to maximize it. You'll be able to see the video.

Double click here to maximize.

DONE !
